EMERGENCY OVERVIEW: COLOR: Pale yellow to yellow  
FORM: Liquid @ 20°C  
ODOR: Faint odor

INHALATION OR INGESTION MAY CAUSE MUCOUS MEMBRANE IRRITATION. MAY CAUSE EYE IRRITATION.

GENERAL: Limited toxicity data are available on this specific product; this health hazard assessment is based on the results of screening tests.

EYE CONTACT: May cause eye irritation in man.

SKIN CONTACT: No irritation is likely to develop following contact with human skin.  
No sensitization reactions.  
This product will probably not be absorbed through human skin.

INHALATION: Unlikely to be hazardous by inhalation because of material's low vapor pressure at ambient temperature.  
Thermal decomposition will evolve irritant vapors.  
No toxic effects are known to be associated with inhalation of this material.

INGESTION: Low oral toxicity, but ingestion may cause irritation of the gastrointestinal tract.  
No toxic effects are expected following ingestion of this product.

OTHER: Not listed by ACGIH, IARC, NIOSH, NTP or OSHA.

FIRST AID MEASURES

---

---

EYE CONTACT: Immediately flush with plenty of water for at least 15 minutes.  
If redness, itching, or a burning sensation develops, have eyes examined and treated by medical personnel.

SKIN CONTACT: Wash material off of the skin with plenty of soap and water.  
If redness, itching, or a burning sensation develops, get medical attention.

INHALATION: Remove victim to fresh air.  
If a cough or other respiratory symptoms develop, consult medical personnel.

INGESTION: DO NOT INDUCE VOMITING.  
Give one or two glasses of water to drink  
Refer to medical personnel or take direction from either a physician or a poison control center.  
Never give anything by mouth to an unconscious person.
