HAZARDS IDENTIFICATION

Classified as non-hazardous to human and environment

FIRST AID MEASURES

INHALATION: ACUTE/HAZARD SYMPTOM: May cause irritation
FIRST AID: Remove source of contamination and move victim to fresh air.
If adverse effects occur, remove to uncontaminated area.
Give artificial respiration if not breathing.
Get immediate medical attention.

SKIN CONTACT: ACUTE/HAZARD SYMPTOM: May cause redness
FIRST AID: Wash off with plenty of water and soap.
If skin irritation occurs, seek medical advice/attention.
Take off contaminated clothing and wash before reuse.
FIRST AID MEASURES (Continued)

**EYE CONTACT:**
- **ACUTE/HAZARD SYMPTOM:** May cause irritation
- **FIRST AID:** Rinse cautiously with water for several minutes
  - Remove contact lenses, if present and easy to do, and continue rinsing
  - If eye irritation persists, seek medical advice/attention

**INGESTION:**
- **ACUTE/HAZARD SYMPTOM:** May cause irritation
- **FIRST AID:** Rinse mouth and do NOT induce vomiting
  - If vomiting occurs, keep head lower than hips to help prevent aspiration
  - If person is unconscious, turn head to the side
  - Seek medical attention immediately

FIRE FIGHTING MEASURES

**SUITABLE EXTINGUISHING MEDIA:** Dry chemical, appropriate foam or carbon dioxide

**SPECIFIC HAZARDS:** Combustible when exposed to heat or flame
- Thermal decomposition will evolve irritant vapors

**PROTECTION FOR FIRE-FIGHTERS:**
- Move container from fire area if it can be done without risk
- Do not scatter spilled material with high-pressure water streams
- Dike for later disposal
- Use extinguishing agents appropriate for surrounding fire
- Avoid inhalation of material or combustion by-products
- Stay upwind and keep out of low areas

ACCIDENTAL RELEASE MEASURES

**PERSONAL PRECAUTIONS:** Avoid contact with eyes. Do not breathe vapor.

**ENVIRONMENTAL PRECAUTIONS:** Minimize contamination of drains, surface, and ground waters.

**METHODS FOR CLEANING UP:**
- **SMALL SPILLS:** Absorb with inert material and put spilled material in appropriate container for disposal
- **LARGE SPILLS:** Absorb with inert material and put spilled material in appropriate container for disposal
  - Ventilate area and wash spill site and allow to evacuate through the sanitary system

HANDLING AND STORAGE

**HANDLING:**
- Keep away from heat and sources of ignition
- Empty containers pose a fire risk
- Evaporate the residue under a fume hood
- Ground all equipment containing material
- Do not ingest – If ingested, seek medical advice immediately
- Avoid contact with skin and eyes
- Do not breathe vapors
- Wear suitable protective clothing in case of insufficient ventilation
- Wear suitable respiratory equipment

**STORAGE:**
- Store in the original closed containers
- Can be stored in most common storage vessels including carbon steel
- Keep in cool, dry place
- **Storage Class:** VCI
- **Storage Class:** 3B (BRD)
- **Safe Storage/Transport Pressure:** Ambient
- **Load/Unload Temperature:** Ambient
EXPOSURE CONTROLS / PERSONAL PROTECTION
