7.2. Conditions for Safe Storage, Including Any Incompatibilities
Technical Measures: Comply with applicable regulations.
Storage Conditions: Store in a dry, cool and well-ventilated place. Keep container closed when not in use.

7.3. Specific End Use(s)
Per FDA:
Adhesives; Resinous and polymeric coatings; Components of paper and paperboard in contact with aqueous and fatty foods; Defoaming agents used in coatings; Defoaming agents used in the manufacture of paper and paperboard; Cellophane - Fatty Acids derived from animal or vegetable fats and oils, and the following salts of such acids, single or mixed: calcium; Rubber articles intended for repeated use - Plasticizers (total not to exceed 30 percent by weight of rubber product unless otherwise specified); Antioxidants and/or stabilizers for polymers; Surface lubricants used in the manufacture of metallic articles; Stabilizers

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control Parameters
For substances listed in section 3 that are not listed here, there are no established exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), NIOSH (REL), or OSHA (PEL).

8.2. Exposure Controls
Appropriate Engineering Controls: Ensure all national/local regulations are observed. Ensure adequate ventilation, especially in confined areas. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment.

Materials for Protective Clothing: Wear thermally protective clothing when handling product in significant amounts.

Hand Protection: If material is hot, wear thermally resistant protective gloves.

Eye Protection: Chemical goggles or safety glasses.

Respiratory Protection: Use NIOSH-approved air-purifying or supplied-air respirator where airborne concentrations of dust are expected to exceed exposure limits.
