Emollients for

Hair *Care*

Our products to complete your puzzle

Normal Hair

The hair is healthy and shiny, but if you don't take care of it, your hair can become fragile and dull! What do you need for your Hair?

- + Shine
- + Protein deposition
- + Anti-frizz and Anti-breakage

TEMEST DO (Decyl Oleate)

- Emollient with good slippery properties, improves gloss after its application.

TEMEST 810 (Caprylic/Capric Triglyceride)

- Naturally derived, highly emollient oils providing pleasant skin feeling. Does not make the skin oily.
- Superb moisturisation.

Dry Hair

The cuticle in dry hair is extremely damaged. The dryness could reach the inner part of the hair, affecting its mechanical resistance. In consequence of this, the activity of sebaceous glands diminish and your hair can lose vitality and shine. How can you improve your hair wellness?

- + Improving shine
- + Lipid enhancer

Temest DO (Decyl Oleate)

- Emollient with good slippery properties, improves gloss in hair care application.

Temest GMO (Glyceryl Oleate)

- Low spreading and moisturising emollient, leaves a rich, silky and nourishing touch.
- Provides with gloss to hair when delivered in either shampoo or conditioner formulations.

Greasy Hair

When hair appear greasy, it is needed to remove the greasiness gently and to provide a purifying action to rebalance the oil content on the skin without removing the good lipid protecting the scalp.

- + Anti-sebo activity
- + Lipid enhancer

TEMEST 2EHI (Ethylhexyl Isononanoate)

- Prevents clogging in aerosols and acts as a plasticizer resin in hair sprays.
- Non-greasy emollient, it helps to reduce the greasy or oily skin feel of other oil phase ingredients.

TEMEST J05 (Di Ethylhexyl Adipate)

- Easily absorbed, leaves hair smooth, without greasiness and with improved suppleness and flexibility.
- Makes sprays feel softer and drier during applications.
